

ASQ ENTERPRISE:

An online tool to enhance developmental screening

ASQ Enterprise provides a user-friendly online system for organizing developmental screening programs and managing data from both the Ages and Stages Questionnaires (ASQ-3™) and Ages and Stages Questionnaires: Social-Emotional (ASQ:SE).

ASQ Enterprise allows programs to:

- Create and manage child and program records.
- Store results and follow-up decisions in child records.
- Easily track when children need to be screened.
- Access activities parents can try at home to encourage child progress.
- Access automatic scoring and screening selection to help eliminate scoring errors and provide more accurate referral information.
- Analyze both child and program level data and track trends across time.

ASQ Enterprise is a convenient tool that allows programs serving young children and families to easily organize and manage their screening programs.

Help Me Grow (HMG) Alabama is a program of the Alabama Partnership for Children as a licensed affiliate of the Help Me Grow National Network, and manages a large statewide ASQ Enterprise account to support early childhood programs and health providers. HMG Alabama is funded by the Alabama Department of Early Childhood Education through the Preschool Development Grant, the Alabama Department of Mental Health through a Project LAUNCH grant from the Substance Abuse and Mental Health Services Association, and private funders.

For more information or to join the Help Me Grow Alabama ASQ Enterprise, contact:

Katie Naman

(334) 271-0304

You can join the HMG Alabama ASQ Enterprise at no cost!

If your program already utilizes ASQ screening instruments, you are eligible to sign up for an ASQ Enterprise account by contacting HMG Alabama and locating a keycode found in your ASQ Starter Kit. For new programs, the only expense is the price of the ASQ-3™ or ASQ:SE Starter Kit. For ASQ screening instrument pricing information visit, <http://agesandstages.com/asq-products/>.
